COURSE OUTLINES **Philip Dykes & Kerry McLeod**

SPIRITUAL HEALING IN ACTION

Fri. Oct. 16, 3-6pm EST

FEE: \$60CAD

Spiritual Healing is one of the most unappreciated faculties of today. The use of healing within ones power is a prime aspect of the student of mediumship. An understanding of colour and its uses in healing of self and others is a fundamental part of the spiritualization of development. Knowing the balance of the creative force of life and the power of the spirit together can move your development of self, mediumship and healing forward profoundly. This unique course is set to:

- heighten the senses and ability of healing of self and others
- link with mediumship
- inspire self-empowerment and spiritual awareness
- boost balance of life

THE ALTERED STATES

Sat. Oct. 17, 11am-4pm EST

FEE: \$90CAD

This disciplined area of mediumship is a specialized subject and one where there is generally a lack of understanding. There are many levels of altered states and understanding where you are in that process will assist you in deepening that partnership with your spirit team to develop in the way they know best. Not every medium is the same or should work the same, therefore the hidden depths of knowledge within the participant is missing. This course is designed to:

- educate and assist in deepening your ability to a high standard
- provide the opportunity to experience the blending and influence of spirit through different techniques
- allowing you to understand how you can progress forward in your development
- instill the knowledge of working together and moving with your team

DEVELOPING SELF FOR MEDIUMSHIP

Fri. Oct. 23, 3-6pm EST

FEE: \$60CAD

Personal development within mediumship is not new, however the lack of understanding of psychology, compassion and empathy is often missing from mediumship development courses of today. The spiritualization of the self is underestimated, as it is required to go hand in hand with mediumship development to bring out the true mediumistic ability within. This course will encompass:

- understanding what 'gets in the way'
- identifying and removing blocks by understanding triggers and deep-seated beliefs
- use of a transformational coaching approach
- insight and awareness to take this learning forward into your own mediumistic development
- ways to assist you on your development of self
