

If you seek to bring forward the emotion and presence of the communicator in your work; if you want to go back to, or find, the naturalness of your mediumship; and if you desire to build that closer blending and relationship with the Spirit, then this course will help you achieve that.

## *The Way of the Spirit*

*The Way of the Spirit* will focus on working with your sensitivity to enable you to meet the need of the spirit communicator. Quite often mediums try to demand and control what kind of information they receive from the Spirit World. This course will place emphasis on the medium surrendering to the power of the Spirit and allowing the spirit communicator to decide what information they want to communicate and how they want to communicate it. In this sense rather than trying to lead the way, the medium enables themselves to actually follow the way of the Spirit, which leads to more natural, emotional and evidentially accurate communications from the Spirit World.

Andy & Donna will help you to unlock and make sense of the clairvoyant pictures and clairsentient feelings you receive, which will help you to deliver more accurate and practical information, and help you to work with the essence of the communicator.
